About MATRXXX Third-Party/Open Source Licenses

MATRXXX Third-Party/Open Source Licenses lists the third-party and open source software licenses that protect the third-party and open source software programs that MATRXXX Digital Commerce uses.

Intended Audience

This information is intended for anyone who needs to know what third-party or open source software MATRXXX Digital Commerce relies on, and how that software is legally protected.

Conventions

This guide uses the following conventions.

Table 1-1

Bold	Identifies items whose names are predefined by the system, such as user interface controls.
<i>Italics</i>	Identifies variables that are parameters whose actual names or values are to be supplied by the user.
Monospace	Identifies file names and directories, data value examples, code examples, blocks of code, references to code snippets inline, system messages, and commands supplied by the user.

Documentation Feedback

MATRXXX Software strives to provide concise, complete, and accurate product documentation and welcomes all feedback. If you have any comments, corrections, or suggestions for improvement, please send them to docs@matrixx.com.

Support

MATRXXX Software works with you to plan, configure, implement and integrate a MATRXXX Engine installation into your data center. Technical support services include:

- Discovery and sizing services.
- Installation and configuration services.
- Data migration and update services for pricing and subscribers.

For more information about MATRXXX services, please [contact us](#).
